RACE APPRAISAL

ANALYSIS: Asher's Edge and Junction Road finished 2-3 with this kind while 7+ lengths clear of the rest of the field Aug 11. That was Edge's first synthetic start and he sure appears the one to beat. He'll get the HF 15a. Road was also trying synthetic for the first time in that Aug 11 race and is an off pace type that could be one to watch for in the stretch. Tricky Tiger finished a distant 4th in that Aug 11 heat. He did outrun long odds when 2nd vs. open straight Maidens June 22 and May 24, so we could see giving him a bit of a look at a price. He's the HF 20. Coercive

is a \$75,000 2yo purchase that lures Zayas to ride, so he at least merits tote and post parade checks. Neoprene is a filly that ran 2nd against her own gender debuting under similar conditions July 5. We'd prefer not to see her taking on males and her barn is low percentage. We could see including her underneath in the exotics as that debut charts decently enough. CLOSERS: Fastest in the stretch in recent races at or near this distance have been: Junction Road :18.9 - Asher's Edge :19.0

HORSE COMMENTS

Tricky Tiger finished a no threat 2nd at huge odds with open straight Maidens May 24 and June 22, but was a distant 4th behind Asher's Edge and Junction Road when dropped to this level Aug 11. He's a tough one to get a read on, but we could see giving him a look at a price.

Coercive a \$75,000 2yo, has worked five times since July 28. We'd lean toward watching one, but he does get a top jockey to ride. Watch the betting for more clues.

Mr. Tonk has worked eight times since March 24. Nothing really jumps out at us, so we'll watch a race.

Neoprene is a filly that finished 2nd debuting with her own gender in a State-bred Maiden July 5. She charts decently off that debut, but is from a barn that is 1-for-28 on the year and we'd prefer to see her facing fillies.

Junction Road rallied for show dough behind Asher's Edge in his second start when dropped to this level Aug 11. He could be one to look for late.

Paxton has worked eight times since April 26. His small barn is 4-for-9 on the year, but only ran one rookie last year and this is their first this year. The last debut winner we could find was in 2017.

Smokin Jack Flash just missed with this kind in November when in the Palmer barn. He came off a 5 month layoff and finished a no threat 3rd of 4 vs. open straight Maidens at Prairie Meadows for Arnett June 7 and now moves to Smullen. He's worked four times since and is a big question mark.

Son of a Slew showed little in two starts with open straight Maidens, a turf route May 18 and a dirt sprint July 6. His barn is 0-for-22 on the year.

Asher's Edge has been competitive in four starts and just missed with this kind in his first try on synthetic Aug 11. He beat Junction Road that day and the latter was 7 lengths clear of the rest of the field. The paper race winner would be no surprise.

FIRE NUMBER – FIRE stands for Final Race Equation and it's a true velocity rating that accounts for a horse's speed during the 'entire' race, not just his final time. We developed the FIRE number with every tool available to us. The projected FIRE number for each horse can be found in the top section of each race under the column headed FIRE NUM. This is the figure to which the horse is projected to run TODAY! Additionally, we print out to 10 FIRE numbers for each horse in the Data Lines (beginning with the horse's most recent race - look for **LAST 10 FIRE**). First-time starters and foreign horses will be marked with an 'X'; lightly-raced horses who seem better than the FIRE number would suggest will get a '?', read this last symbol as 'capable of improvement'.
