RACE APPRAISAL

ANALYSIS: Forbidden Kingdom has a tough time keeping racing fit and was 7th in his last comebacker in a $100k dirt Stakes April 27. However, he won a Grade 2 turf sprint off the bench Dec 30 and he tops the charting. A fast work Oct 16 suggests he is doing well and Kimura takes the call. We'll give **'Kingdom** the HF 15a. **Irideo** plots well off his 4th vs. NW2 Optional Claimers Oct 14. He doesn't win very often, but his numbers are going the right way and Berrios takes over. The old-timer might fit well with this group. **Turn On The Jets** was 8th in a Grade 3 Aug 31. He is 0-for-6 sprinting over this course including his 5th at this level June 16. However, he has worked fast of late and Hernandez is back to ride. Maybe he can make an impact this afternoon.

CLOSERS: Fastest in the stretch in recent races at or near this distance have been: Forbidden Kingdom :20.1 - Irideo :22.4

HORSE COMMENTS

Noble Reflection has been a pace factor only in three starts this year all vs. Stakes company. He owns three sprint wins over this course and Fresu takes over, but others look more enticing on the win end.
Forbidden Kingdom popped and stopped in his comebacker in a $100k Stakes on dirt April 27; a race that has produced three next-out winners. Off since, he has worked in exceptional fashion for his return and he tops the charting off his Dec 30 win off the bench. If ready, the veteran could prove tough to beat. Tab the tote for more clues.
Unconquerable Keen (IRE) dueled and tired to 9th in a Grade 3 Aug 31. His numbers are going the wrong way and Berrios jumps ship. The gelding has worked steadily since raced and he won at this level over this course nearly a year ago. Still, we'll pass on the win end.
Turn On The Jets (IRE) never got going when 8th in that Aug 31 event. He makes his third start off the layoff, Hernandez knows him well and he worked fast Oct 13. However, he is 0-for-6 sprinting over this course and we'll limit him to a minor award.
Irideo (ARG) rallied for 4th vs. NW2 Optional Claimers Oct 14. The old-timer has earned solid ratings of late, he plots close and Berrios takes over. It has been a while since his last win, but he seems to merit respect vs. this group.

METHOD HORSE II

An approach to isolate the contender in each race.

   1. Draw a line through all scratched horses in the top section of the Digest race page.

   2. Award 10 points to all horses with a COLUMN 4 score that is 10 points higher than the Race level shown in the heading for each race.

   3. Note the top 3 high scores in COLUMN 6. Award 8 points for 1st (and ties). 5 points for 2nd (and ties); and 3 points for 3rd (and ties). Be sure to eliminate the scratched horses before awarding points.

   4. If there is only one "F" ("Lone F") in PER COLUMN 7, award 5 points.

   5. The following Handicapping Factors in COLUMN 8 receive points:
     HF 2 = 15 pts.
     HF 15 = 8 pts.
     HF 15a = 4 pts.
     HF 20 = 4 pts.
     HF 21* = 2 pts.
     * - Assign no points for HF 21c, 21d or 21r.

   6. Fractional Chart Order of Finish: (First line under each race table).
     1st (and ties) = 10 pts.
     2nd (and ties) = 6 pts.
     3rd (and ties) = 3 pts.
     "Too many unshowns" award no points.
If necessary, refer to the Fractional Time Comparisons page in the front of the Digest for the complete fractional chart order of finish to determine complete point totals.

   7. In case of ties, split contenders in this method:
     A. Prefer the horse with the highest ratings in Col. 6.
     B. If still tied, prefer the high score in Col. 5.
     C. If still tied, prefer the contender with the highest number in Col 15.
After tie breakers, the top two horses should be considered solid contenders with the first choice, of course deserving the strongest support. The final betting selection rests with
the individual but it is suggested that the novice player stick to the top selection. Although this method will produce a play in every race, advanced handicappers may wish to
improvise with additional rules (recency, jockey/trainer, price or weight restrictions, for example). Considerations of this sort will limit action somewhat but should also increase
long-term profits.
