RACE APPRAISAL

Wound Up has won four of his last six starts including vs. \$12,500 Starter Optional Claiming dirt sprinters Jan 16. He shows a rising numbers pattern, he tops the charting and he is a turf sprint winner. The gelding has good early speed and Frey is back to ride. **Up** is the HF 15a. **Clever Clover** is now in the Miyadi barn after his clunker vs. Cal-bred NW1 Optional Claiming dirt sprinters Feb 15. His numbers prior to that one are not bad, Alvarado takes over and he tries a turf sprint for the first time. Maybe **Clover** will perk

back up as the HF 20. **Harcyn** is often in the mix and he was a distant 2nd vs. NW1 Allowance dirt sprinters Jan 31. He also makes his turf sprint debut, but his numbers are going upward and Castellanos is back to ride. The gelding seems to merit at least exotics consideration.

CLOSERS: Fastest in the stretch in recent races at or near this distance have been: Mr. Big Heart :22.8 - Trinidad :23.5 - Wound Up :24.1

HORSE COMMENTS

Old Triangle enters this fresh for a barn that is unproven with comebackers. The gelding shows three wins in his Data Lines all on synthetic and H. Herrera is back to ride. Still, he is unproven on turf and he may need the race to shake off the rust.

Stan From Malibu set the pace and held for the win in that Feb 1 dirt sprint. He was claimed by Tamayo that day and Berrios returns the call. The gelding is unproven on turf, though, and he may have a tough time winning two straight at this level.

Mr. Big Heart trailed throughout after early trouble in his comebacker vs. NW2L \$16,000 sprinters Feb 1. He was claimed by Papaprodromou that day and the gelding did earn his best numbers in his two turf starts. Still, he is up in class and he may be overmatched at this level.

Square Cat has gone the wrong way in two starts since his win at Fresno Oct 14. He is a turf sprint winner and A. Espinoza strings along, but that last win is starting to look like a fluke.

Trinidad went to the sidelines after his decent 2nd vs. restricted \$20,000 dirt sprinters at Fresno Oct 14. Now in the Galvin barn, they can bring them back ready and Baze is aboard. Turf is a cloud, though, and the trainer stats are not encouraging. We'll watch one.

Harcyn is often in the mix and he was a distant 2nd vs. NW1 Allowance dirt sprinters Jan 31. His numbers are going the right way for his turf sprint debut and Castellanos strings along. Perhaps he can make an impact once again.

Wound Up loves to win and he just beat \$12,500 Starter Optional Claiming dirt sprinters Jan 16. He is a turf sprint winner, he plots on top and he has good early speed. Frey is back to ride and we'll give him a long look.

Idiot's Gold rallied for 2nd vs. NW3L \$8,000 dirt sprinters Jan 24. He was claimed by Lopez that day and he makes his turf sprint debut. His last win was at this 140 RCL April 14, but his recent numbers are pretty soft and he would be a surprise winner.

Clever Clover finished 6th vs. Cal-bred NW1 Optional Claiming dirt sprinters Feb 15. Now in the Miyadi barn, this will be his turf sprint debut and Alvarado takes over. His numbers prior to that last start are not bad and he charts close. We'll give him a look.

Come Out Fighting was in good form on other circuits prior to his 5th vs. similar dirt sprinters locally Feb 7. He tries a turf sprint for the first time and Pereira is aboard, but he may have some proving to do on this circuit.

RACE CLASS LEVEL (RCL) CHANGES

The Digest adjusts its Race Class Levels (RCL) quarterly, most recently changing when the horses had their Jan 1 'birthday'.

Since that date, we have updated our current RCL charts to better reflect inflation and today's smaller horse population. We will occasionally run the updated RCL chart, but we'll send you a copy if you email the Digest @ info@todaysracingdigest.com

The biggest changes this quarter come in the 3-yo division, as we have lowered the Stakes, Allowance and Maiden RCLs from 5 to 20 points, with the Stakes being lowered the most to reflect the fact that horses will now move directly from Maiden and NW1 Allowance wins into Stakes.

We also lowered the older claiming races, starting at the \$32,000 level, by 5 points and have lowered Classified Allowances from a base of 185 to 170 since they are now mostly commonly found as part of NW2 Allowance races. We'll bump the RCL up if the race is part of a NW3 or NW4 Allowance, but such races are few and far between these days.

The latest update began on July 1. The final update will be Oct 1. We've increased RCL's for 2-yo and 3-yo racing for quarter 3.

SIRE TURF, SYNTHETIC and MUD STATS for every horse

For years we have included the win percentages of each sire's first time starters. These stats have helped isolate early winners. The Digest also includes the win percentages for each sire's turf and mud starters. The stats appear after the sire's name in the Breeding line of each horse's comment. In the example below, Deputy Minister's offspring have won 20% of their turf starts, 11% of their synthetic track starts and 17% of their mud starts. For this study, mud is considered any dirt race where the track condition

was not 'Fast'. The turf win percentage is followed by the letter code 'T' and the mud win percentage is followed by the letter code 'M'. If a horse shows just a single stat, or no statistic, it means that the sire had no corresponding statistic in our turf and/or mud sire studies. In this example (below), Lahib had no Mud Starters and his Turf Starters were winless. Our Turf and Mud studies cover over 10 years of racing, beginning Aug 1, 1989.
